Hi Donald, thanks for getting back with me. I hope all is well at your home and your internet was the only thing impacted! I will hold onto this info until we are able to return to cleaning out our offices.

Queen, can you provide Donald, Greg and Ms. Brenda with Angela's cubicle number? Thanks!

Thank you,

Rachel C. McCullough, Chief

Rachel,

I apologize for delay. My internet at my home was down due to the storm. During the week, you contact a staff member from FESS to report pest dropping. Once we receive the phone call, we contact GSA. GSA will then contact the Pest Control Contractor who only comes in on Tuesdays and Thursdays. Thanks!

Subject: RE: Fresh Return Initiative Update

Hey Donald, can you tell me how to report the pest activity to facilities? Who exactly do we contact?

My issue is that one of my staff found significant pest droppings in her overhead cabinets. I am unclear if we are supposed to clean that out or not. Could you advise us please?

Thank you,

Rachel C. McCullough, Chief

Subject: Fresh Return Initiative Update

All,

The Fresh Return Initiative began on March 28, 2022 and is scheduled to continue through April 22, 2022. We thank you all for this extremely important collaboration to spring clean our areas and floors for a fresh return to the office. Each of you play an integral role in the removal of clutter, plants and food sources to ensure we address rodent activity. EPA is in collaboration with GSA who is managing a building-wide integrated pest control. Please note the following communications protocols to address rodent activity:

- 1) Reported pest activity locations to our EPA Facilities;
- 2) EPA Facilities coordinates with GSA who initiates contracted Pest Control Specialists to the site;

3) Pest Control Specialists place a traps in the location(s) where rodent activity is evident; then returns the following week to inspect the traps.

Should employees come across an active trap, please report to EPA Facilities for GSA's contracted Pest Control Specialists to address.
